

Update on Federal Implementation Efforts of the National HIV/AIDS Strategy

**Regional Listening Session
Oakland, CA
Oakland City Hall
June 24, 2014**

**Douglas M. Brooks, MSW
Director, Office of National AIDS Policy**

NATIONAL HIV/AIDS STRATEGY FOR THE UNITED STATES

Vision for the National HIV/AIDS Strategy

“The United States will become a place where new HIV infections are rare and when they do occur, every person, regardless of age, gender, race/ethnicity, sexual orientation, gender identity or socio-economic circumstance, will have unfettered access to high quality, life-extending care, free from stigma and discrimination”

NATIONAL HIV/AIDS STRATEGY FOR THE UNITED STATES

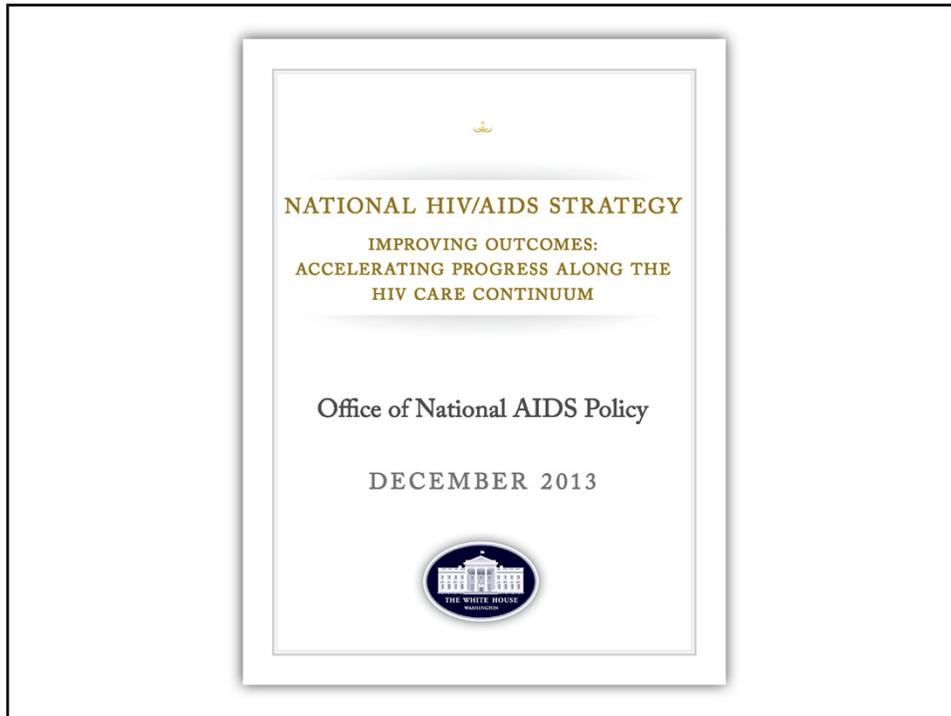

Reducing New HIV Infections

Increasing Access to Care and Improving Health Outcomes for People Living with HIV

Reducing HIV-Related Disparities

Achieving a More Coordinated National Response to the HIV Epidemic

HIV Care Continuum Working Group Recommendations

- I. Support, implement and assess innovative models to more effectively deliver care along the care continuum
- II. Tackle misconceptions, stigma and discrimination to break down barriers to care
- III. Strengthen data collection, coordination and use of data to improve health outcomes and monitor use of Federal resources
- IV. Prioritize and promote research to fill gaps in knowledge along the care continuum
- V. Provide information, resources, and technical assistance to strengthen the delivery of services along the care continuum, particularly at the state and local levels

Office of National AIDS Policy Priorities

- **PRIORITY 1:**
 - Implementation of the HIV Care Continuum Initiative
- **PRIORITY 2:**
 - Addressing the Intersection of Violence Against Women and Girls, HIV/AIDS & Gender-related Health Disparities
- **PRIORITY 3:**
 - Monitoring of Ryan White/ACA Coordination
- **PRIORITY 4:**
 - Aligning Federal Resources with Epidemiological Data
- **PRIORITY 5:**
 - Developing Public-Private Partnerships

Office of National AIDS Policy Priorities

- **PRIORITY 6:**
 - (Back) To Work: Employment & Employment Services for People Living with HIV
- **PRIORITY 7:**
 - Updating National HIV/AIDS Strategy targets
- **PRIORITY 8:**
 - HIV in the Southern United States
- **PRIORITY 9:**
 - HIV Among Gay Men

Specifically

- 1) Identify and test the approximately 183,000 people who are living with HIV, but not yet diagnosed.**
- 2) Locate, return and retain in care the 29% of people who have fallen out of care, and set targets for treatment commencement.**
- 3) Reduce HIV-related health disparities among gay/bisexual men, successfully lower incidence rate among young gay black men.**
- 4) Create public-private partnerships that augment federal efforts.**
- 5) Develop further research and interventions to address trauma experienced by women (and young gay men) as a result of IPV and other forms of violence and abuse.**
- 6) Create opportunities for people living with HIV to get back to work, or become employed for first time.**

The Future of Ryan White

- Administration recognizes and supports need for Ryan White HIV/AIDS program**
- Role of Ryan White will continue to evolve with ongoing Affordable Care Act implementation**
- Focus on improving care continuum outcomes**

Ongoing National HIV/AIDS Strategy Implementation Needs

- **Continued collaboration among Federal, State and local governments, and private partners**
- **Flexibility while maintaining alignment with NHAS principles**
- **Focus on populations with greatest HIV burden:
gay and bisexual men, transgender women, blacks, Latinos**
- **Prioritization of maximizing outcomes along the continuum of care**
- **Research to determine best ways to move forward among multiple options**
- **Technical assistance to prepare HIV workforce for ongoing changes in environment**
- **Shift from process-oriented to outcome-oriented metrics**
- **More rapid analyses of surveillance data and use of data for public health purposes**
- **Ongoing support for basic and clinical research**
